

### **Year 7, 8 and 9 Design & Technology Donation**

Dear Parents/Carers,

As part of the Key Stage 3 Design & Technology course your child will be undertaking a series of exciting practical activities to develop a wide range of new techniques and processes and end outcomes. Students will study three areas of technology each year on a carousel system including: Graphics, Food and Textiles.

Students will be provided with all specialist resources required for Graphics and Textiles based projects. To allow us to offer all these resources we rely on your financial support and ask for a voluntary contribution of £12.00, which can be paid via SCOPAY([www.scopay.com/beaconsfield](http://www.scopay.com/beaconsfield)) please make the payment by **30th September 2025**.

By making this donation we have seen the following benefits to your child's education:

- Higher quality materials can be used, and a greater range of high-level skills developed.
- Time and money saved for parents who would otherwise have to obtain specialist materials at the more expensive retail outlets.
- Experimental resources and materials are available for students to aid the development process.

Please note that this does not cover the ingredients cost for Food Technology, and students in this rotation will still be required to bring in their own supply. Students will be given sufficient notice for practical lessons, so ingredients can be sourced in time.

Thank you in advance for your valued support.

Yours faithfully,

**Miss Walker**

Acting Head of Creative Arts
