

UCAS and Futures Evening - Presentation Slides

Dear Parents/Carers and Students,

Thank you to all those who attended our UCAS and Futures Evening last week. I hope you found the event informative and that it provided a helpful introduction to the guidance and support available to students throughout their time in Sixth Form.

We were also delighted to be joined by Lindsay Robinot-Jones, Outreach Manager at Homerton College, Cambridge, who delivered a clear and insightful overview of the Oxbridge application process. We are very grateful to her for sharing her expertise and experience.

I also hope you found former student Radhika Mahesh's overview of her apprenticeship journey interesting and inspiring. Her reflections offered valuable insight into the opportunities and professional growth that apprenticeships can provide and clearly demonstrated how worthwhile and rewarding this pathway can be. Please find attached the presentation slides from the evening. For further guidance, you may also find our **UCAS and Further Education Guide 2026–27** helpful, which can be accessed [HERE](#).

We look forward to continuing to work closely with you as students begin to explore and shape their post-18 pathways. If you have any further questions following the event, please do not hesitate to get in touch.

Ms Sian Allen

Assistant Headteacher: Acting Director of Sixth Form
