

Free Isaac Physics/University of Cambridge Workshop

Dear Parents/Carers and Students,

The University of Cambridge provides an online learning platform called Isaac Physics which we use extensively in our A Level and GCSE Physics courses. We have been invited to attend a free workshop they are running at the Royal Grammar School, High Wycombe on Thursday 20th November. The agenda is as follows:

- Introduction to more advance physics topics including quantum mechanics and special relativity.
- Overview of Cambridge's prestigious engineering programme and, also, the different pathways post Physics A Levels (HE and apprenticeships) at top-tier universities/employers.

We will need to leave school at 09:50 and will return around 14:00. I can take up to 16 students in the school minibus. If more than 16 students wish to attend, I will randomly select 16 students to go in the minibus, the remainder will need to get the train between Beaconsfield and High Wycombe. All students will need to return to school for afternoon registration at the start of Period 5.

Please can you confirm if your child is able to attend by clicking [HERE](#) and completing the short form **before Friday 14th November**.

If you have any questions regarding this, please contact trips@beaconsfieldhigh.school.

Yours faithfully,

Dr S Gawne

Teacher of Physics and Mathematics, Head of Physics
