**Benita Nagra**

## What is your role?

I am the school's Data and Compliance Manager.

## How long have you worked here?

A grand total of three weeks, I started after the Easter holidays.

## Where are you based?

You can find me in the HR and Payroll Office near the Staffroom.

## Best thing about working at Becky High?

The kind and friendly staff! Everyone has made me feel so welcome.

## Life before Becky High!

I studied economics at the University of Birmingham and then went on to work in investment banking. I worked on the trade floor looking after Data and Risk in Collateral Management Services (much more interesting than it sounds, I promise!) Funnily enough, I'm a BHS alumna, so I've returned to my Becky High life! I came to the school from 2004 - 2011 and it feels so nice to be on familiar ground, even though everything has moved around now!

“

I left banking to set up my own business, I made home and gift items such as candles and coasters and supplied over 90 stores with my products! A highlight was running a pop up store on Regents Street and teaching craft classes, I still love making things and being creative in my spare time.
