

Un^{👁️👁️}en Talent

with...

Colleen Perrin

What is your role?

I am one of the Catering Assistants.

How long have you worked here?

I started working at Beaconsfield High almost seven years ago.

Where are you based?

In the cafeteria kitchens in K Block.

Best thing about working at Becky High?

There's very rarely a quiet time in the kitchens and cafeteria, and I love being busy!

Life before Becky High!

When I left school I went to work at Microtech Electronics Ltd in High Wycombe, building and soldering circuit boards. After 10 years, I joined the catering team at Penn School, a school for children with SEN that closed in 2015. I worked in the school kitchens and there was a spooky basement with the freezers and where a woman worked doing sewing repair work! Then I moved to Pipers Corner School doing the in-house catering for events like Burns Night. This involved polishing lots of silverware before the event!

“

Two years ago I learnt to ski in Andora in Spain after being encouraged by my husband who snowboards. We now go skiing every year, and although I don't do any of the red or black runs, I'm pretty good on the blue and greens. I also like the apres ski element of the holidays!
