

STEPH JACKSON

MATHS TEACHER

WHAT MADE YOU WANT TO BE A TEACHER?

When I realised that my dream of replacing Carol Vorderman on Countdown probably wouldn't come true, it was the most natural choice – I loved maths and really enjoyed my time at school and wanted to help others to do the same.

WHAT IS YOUR HIDDEN TALENT?

I can play the piano and drums and I can wiggle my ears!

WHAT BOX SET ARE YOU BINGEING?

Not a box set but I am addicted to the traitors - I would love to go on the show but I don't have much of a filter so I probably wouldn't last long.

FAVOURITE SMELL?

An Italian restaurant, I could eat pizza every day.

FAV CHILDHOOD BOOK?

I'm a Harry Potter nerd - as a teenage I would queue up at bookshops at midnight when the next one was released.

STAY IN OR GO OUT?

Ideal: Dinner out and see a show. Reality: Stay in and fall asleep on the sofa covered in pizza crumbs.

WHY DID YOU CHOOSE BECKY HIGH?

I get to work with students who are kind, funny and clever and (on the whole) like maths!
